Description

SHINE was delivered in 2022 in the United States. Designed by a passionate boater with a love for speed and a history of owning Pershing yachts, she was built for the U.S. market but is also capable of serving as a global vessel. This versatility is thanks to her upgraded shore power frequency converter and the installation of both 110V and 220V outlets throughout the boat. This 9X Pershing has been meticulously cared for by its original owner and features a high level of options. She has completed her annual maintenance and received several upgrades, making her truly turn-key for the...
